Introduction

The Ohio Board of Regents reports enrollment using both headcount and full-time equivalent enrollment (FTE) measures. Headcount enrollment is a count of students in which each student is counted once regardless of their credit load. Headcount measures participation, not total instructional activity. In contrast, FTE is based on student credit hours (SCH) taken. Annual FTE is equal to total student semester credit hours taken throughout the entire academic year divided by 30 (45 for institutions on a quarter calendar). For students in certain doctoral-professional practice programs such as medicine, all students are treated as full-time, with each student counting as one FTE.

FTE is used to measure total instructional activity and various classifications of course and student types. Total FTE enrollment in all public colleges and universities in Ohio was 453,235 in FY 2011, which includes all terms in the 2010-2011 academic year. Community college enrollment accounted for 149,800 FTE, or 33% of the system total. University regional campuses were 10%, and university main campuses were 57%, of total system FTE. This is a different enrollment pattern than what is shown in headcount reporting, in which the community college share is 38%, the university regional campus share is 11%, and the university main campus share is 54%. This is due to a greater proportion of students at two-year institutions who are part-time.

Total FTE enrollment has increased by 30% over the last ten years, up from 348,142 in FY 2002 to 453,235 in FY 2011. By sector, community colleges have grown the most over that time period, both in numeric and percentage terms. That sector's FTE enrollment rose by 56%, from 95,964 in FY 2002 to 149,800 in FY 2011. University regional campus FTE increased by 44%, and university main campus FTE increased by 17%, over the ten year period.

FTE enrollment can also be broken out by level of instruction. The undergraduate/graduate and professional proportions have been relatively constant over the past 10 years, with undergraduate FTE accounting for 89% of the system total in FY 2002, compared to 90% in FY 2011. Developmental instruction is of particular interest in current policy discussions. Enrollment in developmental courses is a signal that students are not prepared for college level coursework. Developmental coursework does not apply to degree requirements, which reduces the likelihood that students will graduate and can increase the time it takes them to graduate. In FY 2011, developmental courses accounted for 26,155 FTE, or 5.8% of total system-wide FTE. The volume of developmental instruction has increased by 66% over ten years, from a base of 15,753 in FY 2002.

Growth rates vary across campuses. Among community colleges, Columbus State Community College grew the most in numerical terms, increasing by 7,739, from 15,080 in FY 2002 to 22,819 in FY 2011. Stark State College had the highest percentage growth, with a 231% increase from 2,988 in FY 2002 to 9,888 in FY 2011. Among university regional campuses, Kent-Geauga grew the most in percentage terms, 169%, from 436 in FY 2002 to 1,174 in FY 2011. In numerical terms, University of Cincinnati at Clermont had the highest growth among university regional campuses, increasing by 1,484, from 1,681 in FY 2002 to 3,165 in FY 2011. In the university main campus sector, The Ohio State University had the highest numeric growth in FTE, increasing by 8,537, from 48,590 in FY 2002 to 57,127 in FY 2011. The two smallest universities in the system had the highest percentage increases in FTE enrollment. The Northeast Ohio College of Medicine grew by 98%, from 455 in FY 2002 to 902 in FY 2011. Central State University grew by 84%, from 1,240 in FY 2002 to 2,285 in FY 2011.

Definitions

Employee Groups	Definition
Annual Full-Time Equivalent (FTE) Enrollment	Full-time equivalent (FTE) enrollment is a measure calculated based on student credit hours (SCH) taken. Annual FTE is equal to total student credit hours taken throughout the entire academic year divided by 30 if taken at an institution on a semester calendar or 45 if taken at an institution on a quarter calendar. For students in certain doctoral-professional practice programs such as medicine, all students are treated as full-time, with each student enrolled counting as one FTE.
Undergraduate FTE - Developmental	FTE enrollment in courses identified as being Developmental (Code V) in the HEI Course Inventory (CI) file. Developmental courses are below college level courses that are designed to prepare students for college level work. Developmental courses are primarily taken by undergraduate students, but there are some developmental courses, such as English as a Second Language, that can be taken by graduate and professional students. In this report, developmental courses taken by non-undergraduates are still placed in the undergraduate category, regardless of the rank of the students taking the developmental courses.
Other Undergraduate FTE	FTE enrollment in courses identified as Baccalaureate ('B'), General ('G'), or Technical ('T') in the HEI Course Inventory (CI) file are placed in the "Other Undergraduate" category, regardless of rank of the students taking the developmental courses. For courses identified as Masters, Professional, or Doctoral in the Course Inventory (CI) file, the credit hours taken by students with an undergraduate rank (Freshman, Sophomore, Junior, Senior, Not Otherwise Classified Undergraduate), are placed in the Other Undergraduate category.
Graduate and Professional Course Level	For courses identified as Masters, Professional, or Doctoral in the HEI Course Inventory (CI) file, only the credit hours taken by students with Master's , Doctoral, Professional, or Non Degree-seeking Graduate Students are placed in the Graduate and Professional category.
Fiscal Year	For Ohio Board of Regents enrollment reporting purposes, the Fiscal Year runs from summer term through spring term of the following calendar year. For Fiscal Year 2011, the following terms would be included: Summer 2010, Fall 2010, Winter 2011, and Spring 2011.
