## Table of Contents

The preliminary headcount is the total enrollment for the autumn academic term as of the end of business on the fifteenth calendar day. It includes all enrollments in degree-credit courses of instruction and enrollments in flexibly scheduled course sections where the start date is on or before the 15th calendar day of the autumn term. The preliminary headcount data are collected through a survey of institutions in October of each year. This data is used to provide an early view of the trends in higher education enrollment. These results will differ from finalized "end of term" enrollment data collected by the Ohio Board of Regents, which provides the basis for most enrollment reporting.
