Fall Preliminary Headcount by Campus*

Fall Terms 2007 to 2011

Note: Preliminary headcount figures are obtained through a survey of public institutions taken in October of each year. These enrollment numbers reflect students enrolled as of the 14th day of the fall term. They will differ slightly from final enrollment figures submitted to the Board of Regents because final figures reflect students enrolled in late starting classes and other enrollment adjustments that may occur during the term.

*This table reports unduplicated headcount enrollment by institution. Students attending multiple campuses of a single institution are counted only once. This method of counting enrollments will generate lower institutional and statewide totals than other tables that count enrollments at the campus level.

** The decrease in enrollment at Northwest State Community College from fall 2010 to fall 2011 is mostly attributable to a set of off-campus courses that now have a start date after the 14th day of the fall term.
