

REQUEST AND RECOMMENDATION

STARK STATE COLLEGE ONE YEAR TECHNICAL CERTIFICATE DESIGNATION

Background:

The Ohio Department of Higher Education (ODHE) continues to work to identify ways to highlight qualified talent produced by the state's public technical centers, colleges, and universities to meet the workforce needs of Ohio. The Certificate and Industry Recognized Credential Review Project was developed to provide consistent parameters and reliable information about institutional certificates, occupational licenses and industry-recognized certifications obtained by post-secondary students.

The review process was developed to ensure an accurate count of existing One-Year Technical Certificates (at least *30 semester credit hours or 900 clock hours in length*) currently being offered at Ohio's public two-year community colleges. Ohio community colleges participated in the review process through the submission of requested information to determine if their current certificates met the criteria for Technical designation. Technical certificates are defined as organized programs of study that lead to an occupation or special employment opportunity and prepare students for a valid, available industry-recognized credential, such as an occupational license or third-party industry certification. Certificates not meeting the criteria for technical definition were defined as General Certificates and not included in this public posting.

Certificate Recommended Designation:

Certificate Name	Designation
Automotive Technology Certificate	One Year Technical, no expiration date
Ophthalmic Assistant Certificate	One Year Technical, no expiration date
