--

Report Purpose

The Ohio Technical Center Perkins Performance Report is a tool for accountability and continuous improvement. It was developed in alignment with the Ohio Perkins Five-Year State Plan for Career-Technical Education (CTE), effective July 1, 2008 through June 30, 2013. The Act has received government extensions since FY14. The federal Perkins legislation, signed into law on August 12, 2006, emphasizes CTE reform, innovation and continuous improvement to ensure that students acquire the knowledge and skills to meet rigorous and challenging academic standards and industry-recognized skill standards necessary for postsecondary education, life-long learning and high-skill, high-wage careers.

Data Source

The Higher Education Information (HEI) system/OTC database contains data supplied by the Ohio Technical Centers. It is a comprehensive relational database that includes data on students, programs, faculty, and is used to calculate subsidy.

Report Components

The report provides the following information: Concentrator, Completers, Actual State Performance Rate, Perkins Core Indicators of Performance, Levels of Performance (Performance Targets), and Performance rates for the five indicators, disaggregated by required students sub-groups: gender, race/ethnicity and special populations.

Indicators of Performance Definitions
