

ALIGN

WHY ALIGN?

Sexual violence on campus is a public health crisis that requires immediate action. As a community, we have the power to change campus culture. Everyone can do something to end sexual violence.

It's time to **#ALIGNOhio**. When we come together to challenge beliefs and behaviors that create unsafe environments, we take responsibility for making our communities better.

By aligning our priorities, responsibilities, and communities, both locally and across Ohio, we can create a safer state; where sexual violence on campus is acknowledged, identified, and stopped.

Now is the time to **ALIGN** to change the culture that perpetuates violence.
