Metrics Reporting System
Data Export Overview and Interpretation

➢ **Credential Data**
- o Teacher Credential Data
  - ▪ Source file that can be joined to teacher value-added, employment, and resident educator completion data on Credential (State) ID
  - ▪ Contains license type, teaching fields, and issue date
- o Principal Credential Data
  - ▪ Source file that can be joined to principal value-added and employment data on Credential (State) ID

➢ **Evaluation Data**
- o Ohio Principal Evaluation (OPES) data
  - ▪ Aggregated by licensure effective year
- o Ohio Teacher Evaluation (OTES) data
  - ▪ Aggregated by licensure effective year
- o Principal Value-Added data
  - ▪ Should be joined to Principal Credential data file using Credential (State) ID
  - ▪ Contains building value-added letter grade for each principal
- o Teacher Value-Added data
  - ▪ Should be joined to Teacher Credential data file using Credential (State) ID
  - ▪ Contains subject/grade and composite reports for each teacher

➢ **Survey Data** (4 = SA, 3 = A, 2 = D, 1 = SD)
- o Employer Survey
- o Pre-Service Teacher Survey
- o Principal Intern Survey
- o Principal Internship Mentor Survey
- o Resident Educator Survey

➢ **Employment Data**
- o Should be joined to Teacher/Principal Credential data files using Credential (State) ID
- o Includes work and building information, position description, and FTE

➢ **RE Completion Data**
- o Should be joined to Teacher Credential data file using Credential (State) ID
- o Each year's file is based off a rolling 4-year (licensure effective year) cohort (e.g., 2018 RE Completion data is generated from EY licensure years 2014-2017)
- o Includes school year, completion flag, RESA information, and building and work information
