Subject: NEW – Military Transfer Assurance Guides Announcement

I am pleased to announce new Military Transfer Assurance Guides (MTAGs) - Effective immediately

The following programs (and courses within them) have been aligned and approved based on discussion between the Ohio Dept. of Higher Education, the State of Ohio Board of Pharmacy, and current OAC. OAC 4729:3-3-02 designates programs conducted by a branch of the Armed Forces as an approved pharmacy technician program. The military training programs also hold accreditation from the American society of health-system pharmacists/accreditation council for pharmacy education which also allows a program to be a state recognized training program. There are currently no statewide guarantees (OTM, TAGs, CTAGs) for the entire pharmacy tech program to link to this MTAG. Therefore, service members and veterans with the below listed military credit/programs should be treated in a manner similar to your native students (in credit hours awarded) who have completed a pharmacy technician program. Institutions without a pharmacy technician program must determine the applicability of this credit at their own discretion.
