

**Regionally Aligned Priorities in Delivering Skills (RAPIDS)
Request for Proposals
Submission due August 22, 2022**

I. Program Purpose

The Ohio Department of Higher Education (ODHE) will make strategic regional investments in equipment and facilities to develop and support postsecondary institutions' workforce development projects that enhance the economic growth of students and businesses. The investments will directly impact the ability of the state of Ohio to retain and expand existing businesses, attract new enterprises, and further entrepreneurship by addressing regional talent and workforce needs. These regional investments (in a total of seven regions – [map available](#)) will address regionally identified industry-specific occupation and skill requirements. Successful proposals will:

- A. Use state-level data to identify one to three targeted regional industries with in-demand occupations. Areas of investment with the opportunity to impact Ohio's economy include broadband and 5G, additive manufacturing, robotics, and cybersecurity.
- B. Provide sufficient documents demonstrating business/industry support for the proposed program(s).
- C. Develop a plan to address gaps in workforce preparation related to the selected industries and in-demand occupations.
- D. Identify equipment that must be purchased to support the plan.
- E. Clearly explain how equipment will enable a variety of students to acquire career skills through credit and/or non-credit courses and programs.

II. Eligible Applicants

Applications will be submitted by a regional collaborative. Regional proposals may have multiple fiscal leads/agents (public community college or university) and must include a university (public and/or private), community college, Ohio Technical Center (OTC), local economic development partner, and a minimum of seven business support letters from corresponding industries.

III. Anticipated Awards

Six regional awards of \$926,250 will be made and Northeast Ohio will receive \$2,042,500, equally divided among three areas (\$680,833) within the region. All eligible fiscal agents and potential partners in each region can be found in Appendix A. If a region does not submit a RAPIDS proposal within the timeframe that receives approval, the funds may be reallocated to other regions.

IV. Eligible Expenses and Project Term

Grant funds are to be expended for the purposes set forth in Substitute House Bill No. 687, 134th General Assembly and must be used for eligible capital expenses; see Section 207.01, page 72 for details of how funds may be used. The source of the fund is Higher Education Bonds, Fund 7034. Careful consideration will be given to the entire proposed budget, including other sources of funds. Strong preference will be given to proposals that request funds for specific well-defined equipment purchases.

A project may purchase equipment that can be placed at an Ohio Technical Center or private independent institution for education and training purposes. Access to the equipment by the participating institutions and students would be provided through a lease agreement. These funds may not be used to make permanent improvements at the OTC. All grant expenditures must be properly procured following Ohio Revised Code and Administrative rules. When planning the implementation of RAPIDS 6 project(s), ODHE reminds each institution that Ohio's procurement policies encourage a competitive selection process that avoids sole sourcing purchases and encourages buying from Ohio vendors when possible. ODHE urges institutions to follow Ohio's recommended practices when purchasing RAPIDS equipment, which demonstrates fiscal stewardship and due diligence.

It is recommended that institutions purchase large equipment, at a minimum cost of \$25,000 per item.

Investments in curriculum development, faculty development, marketing, and other related costs are not eligible expenses under this RFP.

It is anticipated that the work covered by the RFP will begin December 2022 and continue through December 31, 2024, with a final expense report due March 31, 2025, to the Ohio Department of Higher Education. A desk and/or site audit will occur prior to the final closeout of the grant. Additional data on project outcomes may be solicited until June 2027.

V. Award Recommendations

The Chancellor, after considering the recommendations of internal and external reviewers, shall make the final determination about which proposals, if any, shall be recommended for funding to the Controlling Board. ODHE shall determine the amount of recommended funding for each applicant and the nature of any conditions on funding. All recommendations of ODHE are subject to Controlling Board approval. If requested, fiscal agents must attend the Controlling Board meeting when proposals are considered for funding. All fiscal agents on behalf of

consortia will be notified of the outcome of their proposal after the Chancellor makes funding decisions.

VI. Proposal Review Process and Timeline

Proposals can be submitted beginning July 8, 2022 and are due no later than August 22, 2022. They must be submitted in the following manner:

- A. One electronic, searchable PDF file sent to RAPIDS@highered.ohio.gov.
- B. Applicants are responsible for timely submissions of proposals. Proposals become property of ODHE and are subject to public record laws of the state. Proposals containing all the required elements will receive careful consideration but cannot be guaranteed funding. Accepted proposals will be evaluated by a review team that will be composed of representatives from several state agencies and other stakeholders, following the rubric approved by ODHE. The Chancellor will make final decisions based upon the quality of the proposal in addressing the RFP criteria and its required elements. The schedule below may be revised by ODHE due to circumstances and any changes will be communicated to the applicants via e-mail and posted on the RAPIDS web page, https://www.ohiohighered.org/content/rapids_home.

| | |
|-----------------------------------|--------------------------|
| Request for Proposals Released | July 7, 2022 |
| Proposals Submission Window | July 8 - August 22, 2022 |
| Proposal Review begins | August 23, 2022 |
| Notification of Awarded Proposals | October 2022 |

*ODHE anticipates awarding all of the allocated funds by October 31, 2022. Funds will be transferred to institutions after Controlling Board approval and execution of a grant agreement with ODHE. Institutions will request a release of funds from Controlling Board after completing appropriate procurement procedures. Unallocated dollars as of November 1, 2022, may be reallocated to other workforce development and equipment investments.

Please note that the funds covered by the RFP are authorized by Substitute House Bill No. 687 of the 134th General Assembly, which is the capital bill for the biennium in effect from July 1, 2022, to June 30, 2024. Therefore, continued access to funds that are not released to the institution by the Controlling Board and expended or encumbered prior to June 30, 2024, will be subject to the biennial capital reappropriations process. While it is anticipated that unreleased funds will be reappropriated by the General Assembly without objection, this action cannot be guaranteed and should therefore be taken into consideration by institutions when developing and executing project timelines.

ODHE will provide an opportunity for potential applicants to seek assistance regarding their application through a webinar on July 26, 2022, registration for which is available [here](#) along

with other technical assistance. Applicant questions are to be submitted in writing via email to rapids@highered.ohio.gov. Responses to questions will be posted online to provide the information to interested parties.

Additional information regarding the program is available by contacting John Magill, Associate Vice Chancellor, Economic Advancement, at 614.752.9530 or rapids@highered.ohio.gov.

VII. Proposal Requirements

A. Format of proposal as a whole

Proposals must be submitted in Arial font, 10 points or larger; there is an exception for tables and images. Please see below for page allocations and directions for each section of the proposal. Please clearly label each of the following sections within the proposal submission.

1. **Cover Letter (one page):** Title of project; identify the primary contact plus the fiscal agent, capital purchasing contact, and legal authorizing contact by name, title, address, phone number, and email address.
2. **Executive Summary:** Include: 1) rationale for the targeted regional industries and in-demand occupations; 2) a synopsis of the plan to address workforce needs for these targeted industries; and 3) a description of the how the equipment investment will directly improve education and training learning outcomes at eligible regional institutions as found in Substitute House Bill No. 687, 134th General Assembly, Section 207.01 (1), (2), and (3).
3. **Project Narrative:** See section B below.
4. **Budget Narrative & Budget Table:** The budget narrative will provide background related to the costs of equipment and deployment at the institutional level. Requests must be supported with *third-party cost estimates for all the equipment investment*. This is only an estimate, and if the proposal is funded, the applying institution(s) will need to follow State of Ohio proper procurement policies and procedures.
 - a. The budget narrative should include:
 - i. Itemized costs
 - ii. The underlying assumption for each cost (i.e., base cost of item, number of items, etc.)
 - iii. Any matching funds that will be leveraged, clearly labeled (matching funds are not required for the RAPIDS program). Matching funds may pay for curriculum development, building improvements, supplies, professional development, and other items not covered by RAPIDS state dollars.

- iv. A separate budget table and narrative must be included for each institution that will receive a grant agreement.
- v. Each institution seeking a grant agreement must describe the competitive procurement processes and evaluation it will complete prior to purchasing eligible capital equipment that comply with State of Ohio proper procurement policies and procedures.
- vi. A description by each institution of how the project(s) will be sustained beyond the grant period and continue to provide education and training benefits.

b. The budget table must be supported by the following:

- i. Third-party cost estimates are required for all equipment purchases to ensure reasonable project proposals. The estimate must be specific to the proposed equipment type.
- ii. Third-party cost estimates are to provide documentation to support the proposed project costs. The estimates do not require an institution to select a particular vendor and every purchase must follow Ohio's competitive procurement processes. Cost estimates should include clear per-unit prices and total estimated price for the requested amount of equipment. Please ensure that the attached budget from the institutions matches the quoted price per the estimate for each piece of equipment.

5. Attachments: Proof of commitment from all parties responsible for the implementation of this project is required. Include a minimum of seven unique, original letters of support from each business that communicates its dedication to this RAPIDS program, as well as any signed agreements between project partners. Materials on the location of equipment (leases, etc.) are required. Additional visuals or informational brochures are allowable.

B. Project Narrative and Criteria

1. Project Narratives are required to address the following criteria, in order:

- a. Project Design: Description of the plan to address a regional workforce need through strategic investment in equipment and facilities that will be used in postsecondary credit and/or noncredit educational programs, enhancing the economic growth of students and businesses in the region.¹ This description should, at minimum: List the location(s) of the project (with map) and describe how the equipment will be accessed by students in the region, including

¹ Senate Bill No. 687, 134th General Assembly, Section 207.01(1)

OTCs, community colleges, universities, and incumbent workers, if applicable.

- b. If the equipment is mobile, describe the service area (with map) and possible locations (2-3) to be served.
2. Occupations: Identify and list the in-demand occupations that will be targeted through this workforce program.²
 - a. Describe the career pathways within the targeted industry connected to the selected in-demand occupations. An example of a career pathway map is found at <http://education.ohio.gov/Topics/Career-Tech/Career-Connections/Career-Pathways>.
 - b. Describe the state-level data that informs the focus on the targeted industries and in-demand jobs within the region.³ Baseline data related to labor market need can be a combination of OhioMeansJobs data, Executive Pulse data from JobsOhio economic development partners, and regional or local data related to need. Data from OhioMeansJobs can be found at <http://omj.ohio.gov/OMJResources/WorkforcePros.stm>.
 - i. If an occupation is not on the in-demand occupation list, please provide appropriate rationale and data as support. Explain why the occupations are or will be in demand within the region. This may include information related to regional employment growth, employee replacement, churn, or the need to increase the occupational skills to current employees.
 - ii. List the targeted Job Titles and Standard Occupational Codes (SOCs) associated with the project's education and training.
 3. Regional industries and businesses: Identify the regional industries that will benefit from an increase in the number of individuals educated or trained for these in-demand jobs.
 - a. Provide the Jobs Ohio industry North American Industrial Code System (NAICS) for each targeted industry, and list businesses participating in the project(s).
 - b. Letters of support from business must be original, distinct, and written by the business. Each letter must reference the equipment investment and related workforce development education and training.

² Senate Bill No. 687, 134th General Assembly, Section 207.02(3)

³ Senate Bill No. 687, 134th General Assembly, Section 207.02(3)

- c. Discuss how this project will support regional economic development strategies and draw on the advice of industry, economic development professionals, workforce investment boards (WIBs), and other regional stakeholders.⁴
4. Describe how equipment will enable students and incumbent workers to acquire career skills through credit and/or non-credit courses and programs leading to opportunities in the identified industries and occupations.
 - a. Describe how input was received from industry partners, and how they will be involved in the implementation of the project.
 - i. What input has business had on the type of equipment targeted for selection?
 - ii. Provide specific examples related to how the equipment investment can directly benefit regional business partners and economic growth.
 - b. Explain how/why collaboration is critical to program success and document the collaboration expected throughout the project. Note: Attachments, including business letter of support, should provide evidence of a commitment to collaboration.
 - c. Describe with two or three examples how the equipment investment will improve workforce education and skills for the regional industries.
5. Students: Describe the student population(s) on which there will be a focus and the corresponding recruitment, retention, and job placement strategies for each population. Types of students can include, but are not limited to, traditional students, adult learners (including adults seeking a high school credential), veterans, incumbent workers, and College Credit Plus high school students. Provide an estimate of the expected number of students impacted by the project annually.
6. Institutional support: Include a formal commitment to project success. Indicate any financial or in-kind contributions, including existing equipment and facilities, articulation agreements, and other activities that will contribute to success.
 - a. List and describe the credit or non-credit courses that will be provided to help meet the identified industry and job needs, and their relationship to targeted in-demand occupations.
 - b. The list will include institution, department, CIP, and/or course name if non-credit offering.

⁴ Senate Bill No. 687, 134th General Assembly, Section 207.02(2)

- i. Describe the types of curriculum changes and faculty training needed to integrate the equipment into courses; provide examples of how the equipment will be integrated into a program.
 - ii. Identify any facility investments and other equipment needed to support the courses.
 - c. Note: Institutional or other partner letters/agreements should provide evidence of commitment.
- 7. *Project Plan*: This section should provide a clear description and timeline for activities to be undertaken and will be included as a separate attachment in the grant agreement.
 - a. Outline the roles and responsibilities of key staff members and provide brief biographies.
 - b. Provide a GANNT chart with proposed activities, dependencies, and estimated completion milestone for each activity.
 - c. Describe – with one to three examples – the opportunities and outreach to students, including those in College Credit Plus partnerships at Ohio Technical Centers, community colleges, and universities, as well as incumbent workers who will directly benefit from and be exposed to the equipment.
 - d. A separate project plan must be included for each institution that will receive a grant agreement.
- 8. *Project Evaluation*: Explain how project success will be measured. The evaluation plan should include both formative and summative measurements. Project evaluation must include a system to measure, i.e., academic achievement and regional economic impact, which may include productivity gains and cost savings.
 - a. Describe the evaluation design. Clearly explain how academic achievement and economic impact will be defined and measured.
 - b. Describe the ongoing evaluation process, including collecting data, analyzing data, responding to data (i.e., developing improvement plans), and reporting data to ODHE.
 - c. Provide a timeline for the evaluation process, including formative and summative evaluations complementing the project GANNT chart.
 - d. Identify the individuals who will lead the evaluation process.

- e. ODHE will collect academic and economic data related to the project for three years after the end of the agreement. This data will include and is not limited to the specific metrics listed and described in the proposal's evaluation plan.

VIII. Reporting Requirements

The Ohio Department of Higher Education will monitor each project for which an award is granted to ensure that there is fiscal accountability and operating progress, and that the desired outcomes are achieved. Regular reports, semi-annually, will be required from all awardees through a standard reporting template or system. ODHE may request additional documentation up to three years after project completion to review the investments' impacts.

IX. Legal Notices

The applicant understands that if its application is accepted by the State, the applicant shall enter into an agreement with the State governing the use of the awarded funds. The applicant agrees to comply with all applicable federal, state, and local laws and regulations in the conduct of the work hereunder.

The State reserves the right to fund any application in full or in part, to request additional information to assist in the review process, to require new applications from interested parties, to reject any or all applications responding to this announcement, or to reissue the announcement if it is determined that it is in the best interest of the State of Ohio. Issuing this announcement does not bind the State to making any awards. The State reserves the right to adjust the dates for this announcement for whatever reasons are deemed appropriate. The State reserves the right to waive any non-substantive infractions made by an applicant, provided that the applicant cures such infraction upon request.

All costs incurred in preparation of an application shall be borne by the applicant. Application preparation costs are not recoverable under an award. The State of Ohio shall not contribute in any way to recovering the costs of application preparation.

The funding decisions are final. Applicants will be notified of the outcome of their application(s) at the conclusion of the review process.

The applicant understands that the information provided herein is intended solely to assist the applicant in submittal preparation. To the best of the State's knowledge, the information provided is accurate. However, the State does not warrant such accuracy, and any errors or omissions subsequently determined will not be construed as a basis for invalidating this solicitation. Interested parties bear the sole responsibility of obtaining the necessary information to submit a qualifying application. The State retains the right to modify or withdraw this solicitation at any time. By submitting an application, applicants expressly agree to these terms.

X. Trade Secrets

All lead applicants are strongly discouraged from including in a proposal any information that the lead applicant considers to be a “trade secret,” as that term is defined in Section 1333.61(D) of the Ohio Revised Code. All information submitted in response to this RFP is public information unless a statutory exception exists that exempts it from public release under the Ohio Public Records Act in Section 149.43 of the Ohio Revised Code.

If any information in the proposal is to be treated as a trade secret, the proposal must:

1. Identify each and every occurrence of the information within the proposal with an asterisk before and after each line containing trade secret information, and underline the trade secret information itself;
2. Identify that the proposal contains trade secret information in the cover letter; and
3. Include a summary page immediately after the cover letter that lists each page in the proposal that includes trade secret information and the number of occurrences of trade secret information on that page.
4. To determine what qualifies as trade secret information, refer to the definition of “trade secret” in the Ohio Revised Code at 1333.61(D), which is reproduced below for reference:

(D) “Trade Secret” means information, including the whole or any portion or phase of any scientific or technical information, design, process, procedure, formula, pattern, compilation, program, device, method, technique or improvement, or any business information or plans, financial information, or listing of names, addresses, or telephone numbers that satisfies both of the following:

(1) It derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.

(2) It is the subject of efforts that are reasonable under the circumstances to maintain its secrecy.

- a. The Ohio Department of Higher Education requires non-disclosure agreements from all non-ODHE persons who may have access to proposals containing trade secret information, including evaluators.
- b. If the applicant claims that a record is not subject to disclosure under the Ohio Public Records law based on trade secret, it will bear costs of defending this claim.

XI. Capital Funds⁵

Use of the funds shall comply with the requirements set forth in Substitute House Bill No. 687, Ohio Department of Higher Education and state institutions of higher education as passed by the 134th Ohio General Assembly and signed by Governor DeWine. The funds for this program are from Fund 7034 and may not have private use. Additional information regarding private use and reporting can be found at <https://ohiohighered.org/sites/default/files/uploads/capital/forms/private-activity-bond-form-and-guidelines.doc>.

Capital funds awarded through this RFP may not be used for operating expenses of the project.

SECTION 207.41. For all appropriations in this act from the Higher Education Improvement Fund (Fund 7034) or the Higher Education Improvement Taxable Fund (Fund 7024) that require local funds to be contributed by any state-supported or state-assisted institution of higher education, the Department of Higher Education shall not recommend that any funds be released until the recipient institution demonstrates to the Department of Higher Education and the Office of Budget and Management that the local funds contribution requirement has been secured or satisfied. The local funds shall be in addition to the appropriations in this act.

SECTION 207.42. None of the capital appropriations in this act for state-supported or state assisted institutions of higher education shall be expended until the particular appropriation has been recommended for release by the Department of Higher Education and released by the Director of Budget and Management or the Controlling Board. Either the institution concerned or the Department of Higher Education with the concurrence of the institution concerned may initiate the request to the Director of Budget and Management or the Controlling Board for the release of the particular appropriation.

SECTION 207.43.

(A) No capital appropriations in this act made from the Higher Education Improvement Fund (Fund 7034) or the Higher Education Improvement Taxable Fund (Fund 7024) shall be released for planning or for improvement, renovation, construction, or acquisition of capital facilities if the institution of higher education or the state does not own the real property on which the capital facilities are or will be located. This restriction does not apply in any of the following circumstances:

(1) The institution has a long-term (at least 20 years) lease of, or other interest (such as an easement) in, the real property.

(2) The Department of Higher Education certifies to the Controlling Board that undue delay will occur if planning does not proceed while the property or property interest acquisition process

⁵ Office of Budget and Management (OBM) policy requires that leases and lease Agreement Covering equipment owned by non-profit entities needs to be 20 years.

continues. In this case, funds may be released upon approval of the Controlling Board to pay for planning through the development of schematic drawings only.

(3) In the case of an appropriation for capital facilities that, because of their unique nature or location, will be owned or will be part of facilities owned by a separate nonprofit organization or public body and will be made available to the institution of higher education for its use or benefit, the nonprofit organization or public body either owns or has a long-term (at least 20 years) lease of the real property or other capital facility to be improved, renovated, constructed, or acquired and has entered into a joint or cooperative use agreement with the institution of higher education that meets the requirements of division (C) of this section.

(B) Any appropriations that require cooperation between a technical college and a branch campus of a university may be released by the Controlling Board upon recommendation by the Department of Higher Education that the facilities proposed by the institutions are:

(1) The result of a joint planning effort by the university and the technical college, satisfactory to the Department of Higher Education;

(2) Facilities that will meet the needs of the region in terms of technical and general education, taking into consideration the totality of facilities that will be available after the completion of the projects;

(3) Planned to permit maximum joint use by the university and technical college of the totality of facilities that will be available upon their completion; and

(4) To be located on or adjacent to the branch campus of the university.

(C) The Department of Higher Education shall adopt and maintain rules regarding the release of moneys from all the appropriations for capital facilities for all state-supported or state-assisted institutions of higher education. In the case of capital facilities referred to in division (A)(3) of this section, the joint or cooperative use agreements shall include, as a minimum, provisions that:

(1) Specify the extent and nature of that joint or cooperative use, extending for not fewer than 20 years, with the value of such use or benefit or right to use to be, as is determined by the parties and approved by the Department of Higher Education, reasonably related to the amount of the appropriations;

(2) Provide for pro rata reimbursement to the state should the arrangement for joint or cooperative use be terminated prior to the expiration of its full term;

(3) Provide that procedures to be followed during the capital improvement process will comply with appropriate applicable state statutes and rules, including the provisions of this act; and

(4) Provide for payment or reimbursement to the institution of its administrative costs incurred as a result of the facilities project, not to exceed 1.5 percent of the appropriated amount.

(D) Upon the recommendation of the Department of Higher Education, the Controlling Board may approve the transfer of appropriations for projects requiring cooperation between institutions from one institution to another institution with the approval of both institutions.

(E) Notwithstanding section 127.14 of the Revised Code, the Controlling Board, upon the recommendation of the Department of Higher Education, may transfer amounts appropriated to the Department of Higher Education to accounts of state-supported or state-assisted institutions created for that same purpose.

Appendix A

A. Central

Eligible fiscal agents: Central Ohio Technical College, Columbus State Community College, Marion Technical College, North Central State College, and The Ohio State University

Potential career center partners: Columbus City Schools, C-TEC, Delaware Area Career Center, Eastland-Fairfield Career Center, Knox County Career Center, Madison Career Center, Pioneer Career Center, Pickaway Ross Career Technical Center, and Tri-Rivers Career Center

B. Northeast Ohio/East:

Eligible fiscal agents: Youngstown State University, Kent State University, and Eastern Gateway Community College

Potential career center partners: Ashtabula County Technical and Career Center, Choffin Career & Technical Center, Columbiana County JVSD, Hannah E. Mullins School of Practical Nursing, Mahoning Co Career & Tech Center JVSD, Maplewood Career Center JVSD, Medina County JVSD, and Trumbull Career & Tech Center JVSD

C. Northeast Ohio/Central:

Eligible fiscal agents: University of Akron, Northeast Ohio Medical University, Lakeland Community College, and Stark State College

Potential career center partners: Auburn JVSD, Buckeye JVSD, Canton City SD, Portage Lakes JVSD, Wayne County JVSD, and Willoughby-Eastlake City SD

D. Northeast Ohio/West:

Eligible fiscal agents: Cleveland State University, Cuyahoga Community College, and Lorain County Community College

Potential career center partners: Ashland County-West Holmes JVSD, Cuyahoga Valley Career Center JVSD, EHOVE Career Center, Lorain County JVSD, Polaris JVSD, and Sandusky City SD

E. Northern Appalachia

Eligible fiscal agents: Belmont College, Eastern Gateway Community College, Washington State Community College, and Zane State College

Potential career center partners: Mid-East Career & Technology Centers and Washington County Career Center

F. Northwest

Eligible fiscal agents: Bowling Green State University, Northwest State Community College, Owens Community College, University of Toledo, Rhodes State College, and Terra State Community College

Potential career center partners: Apollo Career Center, Four County JVSD, Penta Career Center JVSD, Toledo City SD, Vanguard-Sentinel JVSD, and Vantage Career Center

G. Southeast

Eligible fiscal agents: Hocking College, Ohio University, Rio Grande Community College, Shawnee State University, and Southern State Community College

Potential career center partners: Buckeye Hills Career Center, Collins Career Technical Center, Pike County Career Technology Center, Scioto County Career Technical Center, and Tri County Career Center

H. Southwest

Eligible fiscal agents: Cincinnati State Technical & Community College, Miami University, and University of Cincinnati

Potential career center partners: Brown & Clermont Adult CC, Butler Technology & Career Development Schools JVSD, Great Oaks Career Campuses, and Warren County JVSD

I. West

Eligible fiscal agents: Central State University, Wright State University, Clark State College, Edison State Community College, and Sinclair Community College

Potential career center partners: Greene County Career Center, Miami Valley Career Technology Center, and Upper Valley Career Center
