Dear Government Entities,

This letter serves to advise that the Motorcycle Ohio program, within the Ohio Department of Public Safety, is providing opportunities for government agencies and not-for-profit organizations such as career centers and institutions of higher learning to offer certified motorcycle rider training.

The Ohio Department of Public Safety, through the Ohio Revised Code, is charged with establishing a motorcycle safety and education program. Training was first made available to the public by the Department's Motorcycle Ohio (MO) program in September 1988. While aimed at providing training for the minors required to complete the course to be eligible to receive a license, the program is available to everyone.

Several curricula are available for applicants to offer in their community: the Basic Rider Skills (BRS) for beginners, the Basic Rider Skills-RR (BRS-RR) for the returning rider, and the Basic Rider Skills – 2 (BRS-2) for experienced riders or riders wanting to bond with their motorcycle.

Note that a paved course range is required to be eligible for an award. The course must have parameters of no less than 120' x 220' with an additional 20'/40' run-off, free of light poles, parking area dividers, curbs, grass and/or tree islands, etc. and must be available on Saturdays and Sundays from April through October.

To apply for a Motorcycle Ohio program grant, please visit the [Online Grants System](#). The [FY2022 Grant Guidelines](#) are available on the Motorcycle Ohio website, www.Motorcycle.Ohio.gov. The grant will be awarded for Fiscal Year 2022 (July 1, 2021 – June 30, 2022).

Motorcycle Ohio will be accepting applications until midnight December 31, 2020. The online grant applications will be reviewed and awardees will be notified in February 2021.

Please review the conditions of the grant and feel free to contact Motorcycle Ohio at mogen@dps.ohio.gov or 1-800-837-4337 (1-800-83-RIDER).

Sincerely,

TRAINING SITE INSPECTION

The inspection and interview process is intended to be a cooperative effort with training providers to confirm compliance or to bring training providers into compliance. Any recommendations for administrative action against any training provider, authorizing official, or instructor shall be at the discretion of the ODPS/MO.

If the authorizing official or site coordinator needs to make changes as a result of non-compliance, the opportunity to remedy the problem may be given in accordance with the Standard Inspection Process established by the ODPS/MO. Set a date for follow-up and/or to re-inspect in accordance with the Standard Inspection Process established by ODPS/MO. Depending on the nature of the violation, the re-inspection may be done by fax or e-mail.

With few exceptions, the standards are worded in the positive form so that a "Yes" response is the one required under the rule. A "No" response will require an explanation and/or correction by the training provider and confirmation from the MO QA staff. The response sections are worded in the positive form so that:

- A "Yes" response is the one required under the rule,
- A "No" response will require an explanation and/or correction by the training provider and confirmation from MO QA staff.
- A "Not Applicable" (N/A) means that this standard is not applicable to the training location under inspection and will require an agreement from ODPS/MO.
- Answering "REF" means that there are attachments as supporting documentation. Supporting documentation may be required for a "Yes", "No" or "N/A" response depending on circumstance. All supporting documentation must be attached separately and clearly reference the rule it is supporting.
- Answering "Not Applicable" (N/A) means that this standard is not applicable to the training location under inspection and will require agreement from ODPS/MO.
- This inspection report comments on a sampling of the training provider's documentation, procedures, as well as your facilities and equipment. It reflects a snapshot of what you reported and/or was observed by the MO QA staff during the inspection. This report is not intended to and should not be construed as verification that all of your records and procedures meet the Ohio Administrative Code (O.A.C.) rules.
- It continues to be the training provider's responsibility to ensure that your documentation and procedures are in compliance with applicable laws and administrative rules throughout the entire year.

Please be aware that depending upon the nature of rule violations that may have been identified during the inspection, the department may take further action, up to and including administrative action(s).

OHIO DEPARTMENT OF PUBLIC SAFETY

**MOTORCYCLE OHIO
RANGE AUTHORIZATION REQUEST****RANGE INFORMATION**

Motorcycle Ohio reserves the right to ask Training Providers for further description of any safety hazard, significant or otherwise, whether in or outside the range or runoff area. Training may not take place until the range has been approved by Motorcycle Ohio and the Training Provider has received written notice of approval. The act of submitting documentation for a new or relocated range does not constitute permission to conduct training on the proposed range.

Motorcycle Ohio reserves the right to ask Training Providers for written authorization from the property owner for use of the land at each training location.

DEFINITIONS

Standard Range - a full size range (120' x 220') completely free of any obstacles / potential obstacles* or problematic surface conditions** within the riding and runoff area.

Alternate Range - a range layout currently approved in the Motorcycle Ohio library. Alternate ranges are less than full size and must be completely free of any obstacles / potential obstacles* and / or problematic surface conditions** within the riding and runoff area.

Modified Range

- 1) A "custom," sponsor-designed range that does not exactly match standard or alternate range sizes and layouts,

OR

- 2) Any range with obstacles / potential obstacles* and / or problematic surface conditions** within the riding and runoff area.

***Obstacles / Potential Obstacles** (include, but are not limited to):

• Curbs • Light Poles • Buildings • Islands • Trees • Walls or Fences • Speed Bumps • Drop-Offs

****Problematic Surface Conditions** (include, but are not limited to):

• Drains or Grates • Potholes • Rough Surfaces • Cracks in Surface

ALL RANGES MUST HAVE A MINIMUM OF 20 FEET OF PAVED RUNOFF**REQUIREMENTS WHEN SUBMITTING PROPOSED MODIFIED RANGE DIAGRAMS****Requirement 1**

Contact an experienced, actively certified Chief Instructor, LITE Trainer or your state coordinator for assistance with your proposed range.

Requirement 2

Draw the range layout and path of travel for exercises 2 through 17 (one diagram per exercise per page). Note the range scale on each page and label all dimensions in all directions. Simple 1/4" ruled graph paper with a 1/4" = 10 feet scale is recommended. The same scale must be used for each exercise. Computer-generated diagrams are acceptable as long as all other diagram requirements are met.

Requirement 3

Identify all obstacles / potential obstacles*, and problematic surface conditions** within the riding area as well as in the 20' of paved runoff. A minimum 20' of separation must be maintained between all paths of travel and obstacles. Obstacles should not inhibit the line of sight between Instructor and participant.

Requirement 4

For each and every exercise (one per page), illustrate the student's path of travel and indicate the distance between the path of travel and any obstacle (at the closest point where the student passes by that obstacle).

OR-

Diagrams with appropriate dimensions may be used for submission. The obstacles / potential obstacles* or problematic surface conditions** must be depicted on the diagram for each exercise. The student's adjusted path of travel with at least 20 feet of separation from any obstacles must be depicted for each exercise. For problematic surface conditions, the path of travel may be closer than 20 feet but it is not recommended that a path of travel cross over the area.

GUIDELINES FOR RANGE PHOTOGRAPHS

The purpose of the range photos is to provide Motorcycle Ohio with a 360-degree view of the entire range (including the middle) and the 20' run-off area, including the overall surface condition. Since it is possible that your range design may not be accepted as submitted, it is strongly suggested that you DO NOT paint your range until it has been formally recognized by Motorcycle Ohio.

Requirements

- Digital photographs only
- Photos must be clear and sharp
- File size limits are 10 meg per e-mail
- A minimum of 8 color photos is required
- Satellite and aerial photos are not acceptable as replacements for ground level photos

Instructions

- 1) Before taking photos, place a **visible** marker (i.e. large traffic cones) at each corner of the range area.
- 2) Take two photos from each corner. See the diagram below and attached pictures for reference.
 - **Photo 1: Long-side View** Includes 3 corners of the range, the corner nearest the photographer and the two farthest corners (area within the red lines below).
 - **Photo 2: Short-side View** Includes 2 corners, the corner nearest the photographer and the next closest corner (area within the blue dashed lines below).
 - **Tip:** Photographer should stand approximately 20 ft. back from each corner.
- 3) Use descriptive file names for your photos (e.g., C-longside.jpg).
- 4) Include photographs of any surface conditions (e.g., drain or manhole cover) located on the range or in the run-off area.
- 5) E-mail photos to Mogen@dps.ohio.gov. *Note: file size limits are 10 megabytes per e-mail.*
