Ohio Guaranteed Transfer Pathways - OGTP

OGTPs build upon the OTM, TAGs, and CTAGs to offer clear pathways for completion of equivalent associate degree programs to bachelor degree programs at Ohio’s public institutions of higher education. The OGTPs also constitute an agreement between public community colleges and universities confirming that community college courses meet major preparation requirements and will be counted and applied toward the bachelor’s degree.

Ohio Transfer Module - OTM

The OTM is a subset or the complete set of a public institution’s general education requirements across various disciplines. Courses are guaranteed to transfer and are applied to the OTM of the receiving institution.

Transfer Assurance Guides - TAGs

Transfer Assurance Guides allow for students to complete common early major courses at Ohio’s public institutions. Courses are guaranteed to transfer and apply towards program requirements.

Career-Technical Assurance Guides - CTAGs

CTAGs align introductory career-technical coursework offered at secondary institutions and OTCs to equivalent post-secondary courses at Ohio’s public colleges and universities.

Military Transfer Assurance Guides - MTAGs

MTAGs provide a statewide guarantee that certain types of military training, experience, and/or coursework align to existing college and university courses and will be awarded appropriate credit.

One-Year Option

One-Year Option awards students who graduate from an OTC a block of non-specific credit toward an ATS degree. Program clock hours range from 600-900+, and credit awards range from 20-30 hours.

Credit When It's Due

Assists students with obtaining an associate degree by using prior coursework completed at two or more Ohio public colleges or universities to satisfy the requirements for an associate degree.

Apprenticeship Pathways

This initiative advocates for individuals completing apprenticeships by incorporating these experiences into academic credit to provide a pathway to a technical associate’s degree at Ohio’s two-year public colleges.
