Institutions of higher education have significant demand in responding to trends in college mental health and substance abuse. More students than ever are experiencing mental concerns and are seeking support and services on campus. Universities can promote wellness and optimal states of wellbeing and attainment of academic career goals. Healthy Minds Study (HMS) supports targeting students with low grade point averages and mental health symptoms as an effective means for addressing student retention. The likelihood in a return on investment for reducing depression will increase retention, leading to increased revenue through tuition dollars for the institution. Additional benefits to the institution may encompass increased student satisfaction and institutional reputation. Further benefits to students and society are also probable with an associated increase in student wellbeing and lifetime of productivity.

Continuum of Strategies to Promote Mental Health in Higher Education

1) **Prevention:**

- **Kognito:** Recognition & referral for suicide
- **Mental Health First Aid:** Recognition & referral for mental disorders
- **Question Persuade Refer (QPR):** Recognition & referral for suicide
- **Mental Health Task Force:** Conduct university-wide review of student mental health, wellness & holistic engagement (e.g., JED Foundation & Active Minds)
- **Stigma Reduction & Education on Mental Disorders:** JED Foundation & Active Minds
- **Means Restriction for the Prevention of Suicide:** JED Foundation
- **Increase Life Skills (e.g., money management, distress tolerance, study skills):** JED Foundation
- **Screening, Brief Intervention, and Referral to Treatment (SBIRT):** Evidence-based practice to identify, reduce, and prevent problematic use, abuse, and dependence on alcohol and illicit drugs ([https://www.integration.samhsa.gov/clinical-practice/sbirt](https://www.integration.samhsa.gov/clinical-practice/sbirt))
- **Match Mental Health Resources to Demand:** One counselor to 1,000/1,500 higher education students (International Accreditation of Counseling Services, [https://iacsinc.org/](https://iacsinc.org/))
Healthy Minds: Student led organization to promote mental health

NAMI on Campus: Student led organization to promote mental health

Collegiate Recovery Communities: Student led organization to promote recovery from substance use disorders

Crisis Intervention Team (CIT): Help direct persons with mental illness into treatment instead of inappropriate incarceration [https://www.neomed.edu/cjccoe/cit/](https://www.neomed.edu/cjccoe/cit/)

Crisis Text Line in Ohio: Text “4hope” to 741741

TAO Connect: Digital platform of tools and educational materials to promote campus-wide mental health

2) **Intervention:**

- Collaborative Assessment and Management of Suicidality (CAMS): A therapeutic framework for suicide-specific assessment and treatment of a patient’s suicidal risk

- Care Teams/Behavioral Interventions Teams: formal crisis protocols National Behavioral Intervention Team Association (NaBITA)

- Motivational Interviewing: A person-centered counseling/educational style for eliciting behavior change by helping people explore and resolve ambivalence

- Brief Alcohol Screening and Intervention for College Students (BASICS): A harm-reduction intervention for college students designed to help students make better decisions about using alcohol

- Cognitive Behavioral Therapy: A short-term, goal-oriented psychotherapy treatment that takes a hands-on, practical approach to problem-solving

- FIRST Coordinated Specialty Care for First Episode Psychosis: Programs available throughout Ohio committed to providing the best treatment services for individuals experiencing an initial episode of psychotic illness and their families as early in the course of illness as possible [https://www.neomed.edu/bestcenter/practices/first/](https://www.neomed.edu/bestcenter/practices/first/)

- MOUs: A agreement between two or more parties outlined in a formal document, such as between a college/university and a federally qualified health center.

- Medical Leave Policies: Provides a framework for the types of medical leave that can be taken by students, staff and faculty (JED Foundation)

3) **Postvention:**

- Ohio House Bill 28: (131st General Assembly) To enact section 3345.37 of the Revised Code with regard to suicide prevention programs at state institutions of higher education

Outreach People Impacted by Suicide/Homicide: JED Foundation, SAMHSA, Suicide Prevention Resource Center
National Prevalence of Suicide\textsuperscript{2}

- More than half of college students have had suicidal thoughts and 10% think seriously about attempting suicide.
- 1,100 suicides at colleges each year, 7.5 per 100,000 students.
- 80-90% of college students who die by suicide were not receiving help from college counseling centers.
- Suicide is the 2\textsuperscript{nd} most common cause of death among college students (2019).
- 1 in 5 College Students Reported Thoughts of Suicide in 2017.
- 6% of undergraduates & 4% of graduate students seriously considered attempting suicide in the past year. Nearly half of each group did not tell anyone.

Suicide Prevalence in Ohio\textsuperscript{3}

- The rate of suicides in Ohio increased by 24 percent from 2008 and 2017.
- There were 15,246 suicides deaths in Ohio over that 10-year span, for an average annual rate of 13.3 deaths per 100,000 people.
- Suicide rates increased more than 36 percent for ages 20 to 29.

Ohio Healthy Minds Study

The Healthy Minds study is an annual mental health survey administered online to random student samples at each campus. Data includes both undergraduate and

\textsuperscript{3} Source: 2019 Ohio Population Health Alliance https://www.ohiopopulationhealthalliance.com/, Ohio Department of Health-Ohio Public Health Information Warehouse http://publicapps.odh.ohio.gov/EDW/DataBrowser/Browse/Mortality
graduate students and is generally completed in 20-30 minutes. Though response rates vary, at most institutions the rates vary between 20-30%. This survey was administered in 2017 to a cohort of 9 colleges in Ohio via a collaboration among PEG’S Foundation, Healthy Minds, and JED Foundation.

- N = 7616 students from cross section of Ohio campuses (n = 9)
- Gender: Male (43.78%); Female (54.57%); Trans male (0.25%); Trans female (0.07%); Gender non-conforming (0.7%); Self-identified (0.6%)
- Age: 18-22 (65.62%); 23-25 (12.41%); 26-30 (8.32%); 31+ (13.65%)
- Race: Black (10.9%); American Indian/Alaskan Native (1.5%); Asian (4.1%); Hispanic (3.8%); Pacific Islander (0.4%); Middle Eastern/Arab (1.5%); White (82.4%)

<tr>
<td>5.6% endorsed stigma</td>
<td></td>
</tr>
</tbody>
</table>

To date about 300 colleges and universities have participated in the Healthy Minds Study (HMS). Colleges and universities voluntarily enroll in the study. Most campuses are in the U.S., but there have been a handful of Canadian institutions. There is a different set of institutions that participate each year. The HMS team is at University of Michigan and Boston University. For more information regarding the Healthy Minds Study please visit: https://healthymindsnetwork.org/research/hms/
