Table 8: State Support Per Subsidy Eligible Full-Time Equivalent (FTE) by Campus, Undergraduate Students, Adjusted for Inflation ----- Page 19

Table 9: State Support Per FTE as a % of Cost per FTE, by Sector ----- Page 20

Table 10: State Support Per FTE as a Share of Cost per FTE, by Campus----- Page 21

Table 11: State Support Per FTE as a % of Cost per FTE, University Undergraduates Only ----- Page 24

Note: Prorating SSI to Graduate and Undergraduate: SSI is calculated on a campus basis and is not normally broken down into graduate and undergraduate parts. For this report the under graduate part of SSI is split out of the campus SSI in the following parts: 1. Enrollments by Graduate vs. Under Graduate Models 2. Degrees by Level 3. Earmarks are all allocated to undergraduate 4. POM protection and Stop Loss are prorated based on FTE

Introduction

This report presents ten year trend data on cost and state support per full-time equivalent enrollment. The tables in this report present data on the cost of instruction per full-time equivalent (FTE) student, state support per FTE student, and state support per FTE as a percentage of cost. Cost of instruction reflects the cost to the college or university for faculty, facilities and other resources needed to support student instruction. State support reflects the amount the state pays per FTE student to offset the cost of instruction. State support as a percentage of costs presents the percentage of the cost of instruction that is offset by the state support.

The first three tables show the cost of instruction by sector and campus. The statewide average for cost of instruction in FY 2011 was \$11,692. While this figure reflects an increase of 17.3% over 10 years, when adjusted for inflation the average cost of instruction has dropped by 8.5%. Costs vary considerably by sector, ranging from \$7,263 at community colleges to \$14,869 at university main campuses.

Tables four through eight present the state support per subsidy-eligible, full-time equivalent student. The state support per FTE at the state level has changed very little over 10 years. In FY 2011, support per student was \$5,256, only 2.5% over support in FY 2002. However, when adjusted for inflation, state support per FTE has dropped 20.1% since FY 2002.

The final tables present the percentage of cost that state support represents when applied to the cost of instruction. These tables provide data by sector and campus. The statewide average of state support as a percentage of cost for FY 2011 is almost 45%. This percentage is down from 51.5% in FY 2002. When only undergraduate support is considered, state support is only 42.2% of the cost of instruction for FY2011, down from 50.4% in FY 2002.
