Knowledge Base

How to use Advanced Search

Step 1: Go to https://oatnkb.ohiohighered.org. Enter your username and password assigned to you. If you forgot your password, click on the “Request new password” link beside the Log in tab and enter your email address to have your password reset.

Step 2: Once logged in, click on the “ATC Advanced Search” link from the right navigation bar under the Quick Links heading.

Step 3: Next, choose the search criteria to help narrow your keyword search. You can search by Post type, SIS, Institution, and also by Date. At the bottom of the Search, Reset and Sort buttons.
Step 4: After clicking on the Search button, the results are displayed.

Greetings and Salutations!
This is my first post to test our new knowledge base. This is an awesome idea as it will help institutions to share information, issues, and concerns. If you have any questions for me, feel free to send a private message or e-mail.
