**Step 4:** Because of the conditions put in place for the expedite review, the learning outcomes are considered to be met as long as the courses haven't undergone major changes from the old to the new versions. Therefore, no learning outcome descriptions from the institutional faculty will appear under Expedite Review.

By using the course information, the panel will assure that the match appears to still meet the learning outcomes. Please note that the previous match was approved and undergone minor changes.

Disable pop-up blockers before being able to review attachments and course information.
