

1. Is it allowable for more than one proposal to be submitted by a single university?

Yes.

2. Is it allowable for a campus to participate in another university's coalition application and submit an independent proposal as well?

Yes.

3. Can the recipient of a Changing Campus Culture grant apply for this grant?

Yes.

4. Please specify allowable and unallowable expenses under this program.

Examples of eligible expenses were provided in the grant application under Section III. Eligible Expenses and Project Term. An example of an unallowable expense would be for any indirect costs to support the project.

5. Are the following acceptable to design and implement the promotion and social media campaign for the Transforming Campus Climate grant: personnel costs, refreshments, t-shirt and promotional items, certificates.

As stated in the grant application: *"Eligible costs must be expenses directly tied to the implementation of the project and may include personnel, equipment and other costs."* All of the above would be considered eligible expenses if they are directly tied to the implementation of the project. Keep in mind that the project must be sustainable beyond the grant period so the application must demonstrate how the college/university intends to sustain the costs in the future.

6. Will the grant cover training costs and associated travel expenses, and personnel costs for a grant program coordinator to implement the grant and provide continuity to develop our program beyond the grant?

Please see previous responses to similar questions about personnel. Keep in mind that the project must be sustainable beyond the grant period so the application must demonstrate how the college/university intends to sustain the costs in the future.

The application will need to detail how the additional training and travel costs would be necessary for the implementation of the project. It should also detail why the additional training is needed following the training provided by the Ohio Department of Higher Education this summer through the regional workshops.

7. What is the indirect costs rate on this grant? Is it 0%, same as the Changing Campus Culture grant?

Indirect costs are not considered eligible expenses and are therefore not allowed.
