Additional Requirements:

- IET must contain adult education, workforce preparation, and occupational training. [463.36]
- IET components above must be integrated—each component must be of sufficient intensity and quality and based on most rigorous research, OCCUR SIMULTANEOUSLY, and use occupationally relevant materials. There must be a single set of learning objectives that identifies EACH component and how they are designed to function cooperatively. [463.37]
- IET must use State’s content standards for adult education AND be part of a career pathway. [463.38]

Resources:

- [IELCE Self-Assessment Tool](#): Provides an opportunity for programs to participate in a reflective activity in assessing their program’s risk in key areas.
- [IELCE Guide](#): This guide is intended to be used as a self-assessment in your development or review of an IELE program.
- [Career Pathways Resource](#):

Fact:

Employer engagement is an essential component of the “T” in IET. What employer will interview/hire your students after they complete the training? How does the training that your students complete make them stand out from others who did not complete this training?

Fact:

IET models should be supported by data and information from your Local Workforce Plan. IET models should also be supported with data from the local labor market.

Fact:

The IET component of a 243 funded IELCE does not necessarily have to lead to a nationally recognized certificate.
