Section 1 | Purpose

The purpose of this Campus Completion Plan is to develop a systemic improvement plan for institution-wide policy and practice change, that reaches the departmental- and classroom levels for direct impact on student persistence and completion by:

- Engaging system-wide expertise in all aspects of the Plan’s development, implementation and assessment;
- Identifying policies and practices that are advancing the institution toward improved student completion rates;
- Discerning strategies and methods that are likely to demonstrate impact toward increased student persistence and completion;
- Prioritizing improvement focus areas based on probability for positive impact on current student persistence and completion;
- Engaging employers in completion efforts that align with workforce needs.

This document is to serve as a vehicle for campuses to articulate the outcome of a strategic process for improvement.
Section 2 | Connection to the Institution

Considerations

- Who are our students?
- What efforts are underway at the college to help students in need of remediation become better prepared for college?
- How do we build relationships with K-12 schools? How do we engage with parents, adult-students, and community?
- What policies do we have that incentivize students to graduate from high school college ready? What policies and practices at the federal, state, and institutional levels are barriers to successful transition from the high school to college?
- How does our institution orient students? How does our institution communicate learning expectations to your students? How does admissions, student support, registration, and student life aid in this process?
- How does the co-curricular program support the common learning outcomes of the institution?
- Do our current academic and student programs meet our students’ needs and interests? How do we know? How do we help students select a career?

**Additional Information Needs:**
1. Current CC+ credit hour count
2. Current CC+ enrollment by high school
Considerations

- Why do our students fall behind or leave? How do you know?
- How do we advise and place students for efficient completion?
- What do we know about credit accumulation?
- How do we help undecided students choose a career and educational path?
- How do we help students understand industry needs and high-demand areas?
- How do we engage students within the college community?
- What policies do we have that incentivize students to persist from the first to second semester and from the first to second academic year with at least 12 credit hours? What policies and practices at the federal, state, and institutional levels are barriers to successful transition from the first to second year?
- How do we help students who are underprepared for their course of study?
- How do we address the differences in learning styles? How do we address students with special needs? (handicapped, seniors, commuters)

Section 4 | Student Progress

Considerations

- What measures do we collect to ensure that students are staying on track?
- How and when do we intervene with students to keep them on track?
- How do we engage students with meaningful workforce connections?
- How transparent and accessible are our program of study?
- What policies do we have that incentivize students to stay on track? What policies at the federal, state, and local levels are barriers to students’ ability to persist?
- How do we ensure alignment between instructional and student support services and among institutional interventions and programs?
- How do we determine the preparation of students for specific programs?
- How does our institution support student learning?
- How do we determine and address learning support needs of the students?

Additional Information Needs:

1. The number of students attending Fall 2015 designated as “returning” students
Section 5 | Student Completion

Considerations

- Are students achieving credentials within selected program streams?
- How can we increase credit attainment and help more students complete their credentials, more quickly?
- How do we assist students with college to career transition?
- What policies do we have that incentivize students to complete a goal or certificate in a timely manner? What policies and practices at the federal, state, and institutional levels are barriers to successful completion?
- Do our registration and withdrawal policies support completion? How do we know that students who complete our certificates and degrees have met our learning expectations?

<td>CAO, CSAO</td>
<td>Deans, Academic Services, Advising, Registrar, Faculty</td>
<td>15% increase in the number of students receiving PLA credit by the end of AY2017</td>
<td>Implementation: Fall of 2014</td>
<td>Students receiving PLA credit. No increase</td>
</tr>
</tbody>
</table>

* Explanation: The College will continue to pursue PLA as a viable option for adult learners and will continue to make necessary improvements to strengthen the PLA option. Prioritizing this as a completion goal however, has been abandoned due to the relevancy of PLA as a high impact practice.

- Which of the 9 Jobs Ohio key industries are addressed in our current curriculum and programming? [http://jobs-ohio.com/industries](http://jobs-ohio.com/industries)
- How have we linked our curriculum and programming to labor market information for each occupation? [http://ohiolmi.com/proj/jobsOhioInd.htm](http://ohiolmi.com/proj/jobsOhioInd.htm)
- What are the job training needs of our community based on our regional economic development network?
- How do we connect our students needing employment with our employers needing a trained workforce?
- What are our current program advisory committees recommending to improve our curriculum and what new programs do they endorse?
- How do we analyze the changing needs of our stakeholders and select courses of action regarding these needs?
- How do we determine if we should target stakeholder groups with our educational offerings and services?
- How do we align our credit on non-credit offerings
