

2015 Ohio Educator Preparation Provider Performance Report Cleveland State University

Institution Profile

(Data Source: Cleveland State University)

Located in downtown Cleveland, Ohio, CSU enrolls nearly 17,500 students, most of whom are Ohio residents. Law and graduate students account for 33% of total enrollment, while undergraduates comprise the remaining 67%. The student-faculty ratio of 19:1 promotes much faculty-student interaction. CSU's selection as one of America's Best Colleges by U.S. News & World Report underscores the University's commitment to academic excellence. Its current Carnegie Classification is that of a Doctoral-granting, Research University with high research activity.

College of Education and Human Services

The College of Education & Human Services enrolls approximately 2,500 students every term (1,000 undergraduates and 1,500 graduate students). At the undergraduate level, we attract a sizeable transfer student population that includes many nontraditional students who attend school on a part-time basis. At the graduate level, established professionals study alongside those who are pursuing newly chosen professions. Through internships, fieldwork, student teaching, and clinical practica, nearly all of our academic programs place empiric, on-site training at the center of student learning

Report Overview

The Ohio Department of Higher Education gathers data annually from multiple sources to report the following performance metrics in the Educator Preparation Provider Performance Reports:

- Ohio Teacher Evaluation System Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider
- Ohio Principal Evaluation System Results for for Ohio Principals Prepared by an Ohio Educator Preparation Provider
- Field and Clinical Experiences Required by Ohio Educator Preparation Provider Candidates
- Licensure Test Results for Ohio Educator Preparation Provider Program Completers
- Value-added Data for K-12 Students Taught by Ohio Teachers Prepared by an Ohio Educator Preparation Provider
- Demographic Information for Schools in Which Ohio Educator Preparation Provider-Prepared Teachers with Value-Added Data Serve
- Academic Measures Used to Inform Admissions Decisions at Ohio Educator Preparation Provider Programs

**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an
Ohio Educator Preparation Provider at Cleveland State University**

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Ohio Department of Education)

Description of Data:

February 2016 Note: Ohio Teacher Evaluation System results for the 2015 Report are not yet available. Revised Educator Preparation Performance Reports will be published when these data become available.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2011, 2012, 2013, and 2014.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to Ohio law, results must be masked for institutions with fewer than 10 completers with OTES data.

Field and Clinical Experiences for Candidates at Cleveland State University

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Cleveland State University)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs	
Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	N
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	525
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	968
Average number of weeks required to teach full-time within the student teaching experience at the institution	15
Percentage of teacher candidates who satisfactorily completed student teaching	96.31%

Ohio Educator Licensure Examination Pass Rates at Cleveland State University

Reporting Period from Sept 1, 2013 to Aug 31, 2014
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses.

Further, because the data are gathered from the Title II reports, there is a one year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2014-2015.

Value-Added Data for Students Taught by Teachers Prepared by Ohio Educator Preparation Providers at Cleveland State University

Reporting Period from Sept 1, 2014 to Aug 31, 2015

Description of Data:

February 2016 Note: Value-Added results for the 2015 Report are not yet available. Revised Educator Preparation Performance Reports will be published when these data become available.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of, 2011, 2012, 2013, and 2014.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on reading and mathematics achievement tests in grades 4-8.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

National Accreditation Status

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP). Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Excellence and Innovation Initiatives

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Cleveland State University)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:	M.Ed. in C&I: PreK-12 Chinese Language
Purpose:	Build capacity for teaching Chinese as a foreign language in grades PreK-12.
Goal:	Recruit and train native and high-level heritage speakers of Chinese who are fluent in English to teach Chinese.
Number of Participants:	16
Strategy:	This program provides an opportunity for fluent speakers of Chinese to acquire the pedagogical knowledge and skills needed to secure PreK-12 employment teaching Chinese language and culture to U.S. students. Candidates must be fluent in Chinese and English. Many have prior teaching experience, often in settings outside the U.S. The program integrates graduate education courses with a supervised student teaching experience in American schools. Where lacking at program entry, applicants must also complete supplemental coursework on Chinese literature, culture and/or linguistics.
External Recognition:	Schools from Minnesota, Illinois, Utah, and Texas have sought to employ graduates of our program; there are few programs of this type in the U.S.
Initiative:	Master of Urban Secondary Teaching (MUST)
Purpose:	Address the effects of race, class, and gender on the achievement of urban secondary students.
Goal:	Prepare teachers who are committed to teaching in urban settings and promote urban school renewal.
Number of Participants:	30
Strategy:	Admission requirements include a baccalaureate degree in secondary or multiage teaching field; above average grades in that field; and potential for leadership, collaboration, and problem-solving. MUST is a cohort-based program that integrates graduate education courses with a 9-month, urban-based internship. The program is 14 months in duration. As exit requirements, interns complete a classroom research project and a professional teaching portfolio, both of which demonstrate their competencies and reflective, responsive urban teachers and their commitment to social justice and urban schooling.
Demonstration of Impact:	MUST has a Professional Development School (PDS) partnership with the Cleveland School of Science and Medicine. A key component of this relationship is the evaluation of student learning.
External Recognition:	Recipient of 4 national awards, including the 2012 Urban Impact Award from the Council of Great City Schools.
Initiative:	CSUTeach
Purpose:	Build capacity for teaching math and lab sciences in grades 7-12.
Goal:	Attract science & math majors into 7-12 teaching careers, prepare them through a field-intensive curriculum, and support their induction & retention.
Number of Participants:	75
Strategy:	CSUTeach is one of 40 programs that replicate UTeach, a nationally recognized model for science and math teacher preparation that originated at the University of Texas-Austin. CSUTeach invites undergraduate majors in math or science to explore teaching in their freshman year. Due to a

Demonstration of Impact:

streamlined curriculum, those who continue can graduate in four years with a degree in science or math and a teaching license. Candidates learn to use technology effectively and to design problem-based lessons that promote critical thinking. The latest research on learning science and math is emphasized. By 2020, it is estimated that UTeach programs will have produced 9,000 graduates nationwide who will have taught over 1 million math and science middle and high school students.

External Recognition:

UTeach is supported by the National Math & Science Initiative and recognized as a model program by the National Research Council & US Dept. of Ed

Principal Preparation Programs

Initiative:	Inspired Leaders Principal Licensure Program
Purpose:	Provide dynamic school leadership for 21st century schools.
Goal:	Offer a 16-month, cohort-based alternative pathway to principal licensure for working professionals.
Number of Participants:	95
Strategy:	Participants receive focused instruction on topics such as social justice, school reform, leading in 21st century schools, and making global connections. They learn how to use data and technology effectively, apply research to improve schools, manage personnel, make and implement strategic decisions, influence public policy, and create cultures of shared learning. Courses are offered using a blended instructional model that includes weekend and online components. As part of a capstone course, students undertake a school-based project or initiative for implementation in their work environment.
Demonstration of Impact:	The Center for Educational Leadership is expanding the Inspired Leaders Licensure Program due to high levels of interest. Graduates of the program are hired into school systems, retained, and continue to have success.
External Recognition:	Area urban school districts have created leadership academies based on the Inspired Leaders Licensure Program.
