**Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an
Ohio Educator Preparation Provider at University of Dayton**

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Ohio Department of Education)

Description of Data:

February 2016 Note: Ohio Teacher Evaluation System results for the 2015 Report are not yet available. Revised Educator Preparation Performance Reports will be published when these data become available.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2011, 2012, 2013, and 2014.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to Ohio law, results must be masked for institutions with fewer than 10 completers with OTES data.

Field and Clinical Experiences for Candidates at University of Dayton

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: University of Dayton)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs	
Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	Y
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	100
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	320
Average number of weeks required to teach full-time within the student teaching experience at the institution	15

Ohio Educator Licensure Examination Pass Rates at University of Dayton

Reporting Period from Sept 1, 2013 to Aug 31, 2014
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses.

Further, because the data are gathered from the Title II reports, there is a one year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2014-2015.

Value-Added Data for Students Taught by Teachers Prepared by Ohio Educator Preparation Providers at University of Dayton

Reporting Period from Sept 1, 2014 to Aug 31, 2015

Description of Data:

February 2016 Note: Value-Added results for the 2015 Report are not yet available. Revised Educator Preparation Performance Reports will be published when these data become available.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of, 2011, 2012, 2013, and 2014.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on reading and mathematics achievement tests in grades 4-8.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

National Accreditation Status

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP). Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Excellence and Innovation Initiatives

Reporting Period from Sept 1, 2014 to Aug 31, 2015
(Data Source: University of Dayton)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:	Teaching English to Speakers of Other Languages
Purpose:	Improve the skills of teachers to teach English Language Learners
Goal:	International Engagement
Number of Participants:	40
Strategy:	The Teaching English to Speakers of Other Languages (TESOL) certificate is an interdisciplinary program which addresses the growing demand internationally, nationally, and locally for individuals trained in working with individuals who speak English as a second language. For teacher education students, the program provides a greater depth and breadth for working with English language learners in their grade-level and content-area classrooms. The program can be completed in three semesters and students can earn credit towards it in TESOL study abroad programs. Students in the program receive hands-on training via the opportunity to teach English language learners in the University of Dayton's Intensive English Program.
Demonstration of Impact:	There were 16 students completing the TESOL Certificate in 2014-15. We will have job placement data in early 2016, but we anticipate this will make our candidates more marketable as they exit the program.
External Recognition:	State recognition of the program.

Initiative:	Ohio Dean's Compact on Exceptional Children
Purpose:	To develop candidates that are better qualified to teach students with disabilities and other learning difficulties.
Goal:	To develop a program in which candidates earn middle childhood licensure with two focus areas and an intervention specialist mild/moderate grades K-12 certificate/licensure/endorsement.
Number of Participants:	12
Strategy:	During the second year of this grant, tasks completed include collaboration with participating school districts for field and clinical experiences; created a new, tentative four year plan for middle childhood candidates to earn intervention specialist license; aligned the Council for Exceptional Children (CEC) initial preparation standards into the Middle Childhood program; and created an on-going resource center of artifacts, materials and modules to support this initiative. Faculty are in the process of creating a longitudinal instrument that assesses the knowledge and dispositions of candidates in regards to teaching and effective instruction for all students in an inclusive setting.
External Recognition:	This program has been approved by ODHE and the University of Dayton programs' process.

Initiative:	Dyslexia Certificate Program
Purpose:	To prepare teachers to be committed to the education of all children.
Goal:	To achieve knowledge and skills needed to work with children with Dyslexia.
Number of Participants:	111
Strategy:	Our undergraduate Early Childhood, Intervention Specialist, and Middle Childhood programs are

approved by the International Dyslexia Association. We also offer a Dyslexia Certificate program as an outgrowth of this approval. Undergraduates in the Early Childhood, Intervention Specialist, or Middle Childhood Education Programs at the University of Dayton can choose to also obtain the Dyslexia Certificate as part of their four year program. This has been approved at the State and Specialty Professional Organization levels. The program currently consists of 2 additional classes, with one field experience devoted working with students identified with Dyslexia.

External Recognition: Recognition of the program by the International Dyslexia Association.

Principal Preparation Programs

Initiative:	Advance International and Intercultural Engagement
Purpose:	Purpose Improve/increase access to University supports for racially and ethnically diverse international students
Goal:	International Engagement
Number of Participants:	26
Strategy:	During the reporting period, the University of Dayton (UD) and the Department of Educational Administration (EDA) have maintained quite a number of international students in many of our classes; more than 25% of our face-to-face students are international students with varying skills and abilities. Most notable are the differences in both spoken and written command of English language that impacts so many elements of our class requirements. EDA faculty remain committed to success of all of our students and continue to make adjustments and adaptations to our teaching methods in order to provide foundational background information and experiences (i.e., basics of APA format) to address some identified student needs during classes, while also making outside-of-class arrangements when appropriate, as requested by students or as suggested by the professor. Faculty members continue to explore and identify various UD supports for individual students to access beyond the support of individual faculty members.
Demonstration of Impact:	Faculty members have continued to increase their hours of faculty and student contact outside of actual class time (by about three times of the past contact hours for select students who take advantage of such opportunities). The contact hours include both in person instances (increased office visits) as well as online contact with students sharing drafts of completed work--with the faculty member making revisions and returning the work to students prior to the final due dates. Selected faculty and staff members have also participated in relevant training opportunities related to international students.
