*Working Groups

- Licensing / Credentials
 - Look at all state boards and determine where overlap with higher ed exists
 - Jay Favuzzi
 - Sherrill Smith (will help with paths for healthcare professions)
 - Rick DeChant (also look at IT paths at Tri-C)
 - Mike Carrell

Step 1 Using list of Lic/Cert Board in Ohio, determine which ones are tied to coursework/degrees in higher ed.

Step 2 Determine what work is necessary to potentially create a path for military/veterans in the areas noted from step one. Recommendations could range from a new MTAG to having meetings with a particular state board.

- Bridges / Pathways
 - Inventory and encourage the creation of bridges/pathways for veterans
 - Barbara Henry
 - Rick Williams
 - Angela Bailey
 - Sara Black

Step 1 Inventory public institutions and determine what, if any, veteran/military specific programs/pathways/bridges exist. (or if anything is waived)

Step 2 Can any programs be easily created? Can any MTAGs be used for this? Any certificate programs that seem like a potential fit?

- Financial Aid (SAP 150% rule)
 - Work to help solve the 150% issue within Ohio
 - Brad Myers
 - Danny Eakins
 - Amy Giordano

Step 1 Survey (perhaps just call) financial aid directors to see if they have a “Max time-frame appeal” for the 150% rule. Mixed information exists about this based on the survey we did in 2014 and what is currently believed to be happening.

Step 2 If all public institutions have this in place – how best do we spread the word (e.g. make sure advisors and financial aid folks are talking)? If this does not exist on certain campuses, how can we promote/encourage them to potentially create this process?
