

CERTIFICATE OF AFFIRMATION

This certificate is submitted on behalf of the _____ program

Operated by _____, _____
(District) (District IRN)

Offered at _____, _____
(Building) (Building IRN)

Offered at _____, _____
(Building) (Building IRN)

I affirm that the secondary school at which I am employed is offering educational content that is part of a statewide career-technical articulation and with my school's participation and support, I am helping to provide opportunities for post-secondary credit for our career-technical education students in _____. By submitting to the statewide Course Equivalency Management System (CEMS), I am seeking approval for my secondary school to participate in the statewide career-technical articulation agreement in the aforementioned technical area. I certify that I have read the guiding documents provided by the Ohio Department of Higher Education that provide the statewide learning outcomes (and where applicable, instructional resources), and I agree to cover these topics with my students in the teaching and learning environment. I further agree to share the associated documents and materials with colleagues within my school who are teaching the same courses for which institutional approval might be granted.

I understand that the goal of statewide articulation and transfer is to teach a common set of statewide learning outcomes, so that students can move seamlessly through the secondary to postsecondary systems. I understand that at the completion of my course(s), I must certify in good faith, that the student has met all of the learning outcomes in the statewide articulation agreement, and has passed the appropriate course and measurements.

Courses In program (name & EMIS #): _____
