Notes Key:

CTIT003 & CTIT004 approvals are necessary for students to receive credit for the new CTIT0014 course. At most receiving post-secondary institutions the learning outcomes for CTIT003 & CTIT004 are found in one course. Students who only take CTIT003 or CTIT004 may be missing critical learning outcomes. Recieving institutions are encourage to individually review student credentials if the sending HS program only has approval for either CTIT003 or CTIT004, but not both.
