

Several Smaller Faculty Clusters may be needed to work on additional courses to move the pathway closer to a full associate degree award

Broad Meta Major
Identification of Inventory of Majors Under the Meta

1st Committee Phase
Identify Commonalities
Ex: - Beginning Math requirements of inventory of majors included in the meta, General Education similarities, and TAG courses that cut across all the majors

Decision Point for Pathway Committee/and For Student

Smaller Clustering of Majors

Smaller Clustering of Majors

Smaller Clustering of Majors

Smaller Clusters May Decide:

- 1. On an inventory of courses options that might fulfill the remainder of the degree requirements to an associate degree*
- 2. Decided that regional needs will dictate the remainder of the degree award and decide on regional course options*
- 3. Provide consensus that the major or small cluster of majors do not lend to a full associate degree completion, and that the guided pathway should ensure students know this is a "decision point"*
